Education

Hillsborough Community College   *Tampa, FL*
AS IN COMPUTER PROGRAMMING   *Aug 2021 – December 2022*

Experience

Diamond Drugs, LLC   *Indiana, PA (Remote)*
FULL-STACK SOFTWARE DEVELOPER   *June 2024 – Present*
- Implemented multi-tenant 404 error page, a one-time authorization link using ReBAC, e-commerce-like store for prescriptions.
- Built mobile-first, user-friendly interfaces, while collaborating with UI/UX designers to meet client requirements, Vue, .Net
- Collaborated within an Agile/Scrum framework, consistently completing all tasks within two-week sprint cycles with Azure DevOps
- Ensured strict adherence to PCI-DSS and HIPAA compliance standards for e-commerce and telehealth interactions.
- Designed, and optimized, stored procedures and tables, including tables and data structures, with T-SQL, MSSQL Server and Dapper.

Advanced Correctional Healthcare   *Virginia Beach (Remote)*
FULL-STACK SOFTWARE DEVELOPER   *October 2023 – April 2024*
- Developed authentication using .NET and MS Identity (OTP, MFA) with Azure Active Directory/Entra ID, MSSQL Server, T-SQL
- Integrated multiple Azure features that reduced costs by 50%.
- Created HL7 2.x message encoder and decoder in .NET, wrote SFTP integration and file parsing for medical records.
- Delivered feature presentations to junior developers and staff, wrote documentation for end users and development team..
- Addressed system security vulnerabilities and proposed architecture improvements in Vue/Javascript.
- Created and implemented unit/integration test strategies, along with automated end-to-end tests in Vue.

Curved Arrow Networks, LLC   *Lakeland, FL (Office)*
FULL-STACK SOFTWARE DEVELOPER   *August 2018 – April 2023*
- Developed authentication using .NET, PHP, MSSQL Server, T-SQL, MySql
- Wrote end-to-end tests with PHPUnit, documented all tests and code blocks.
- Integrated Epic and OpenEMR into internal ePCR and EHR system.
- Integrated third-party HL7 2.x message encoder and decoder in .PHP and FHIR for patient records.
- Created support functionality to allow customers to communicate with staff.
- Planned, Designed, and Created a Customer Relationship Manager for internal use leading to an increase of closed sales by 75%.
- Completed Software development apprenticeship.

Knowledge

Programming Languages: C# API/WPF, Java SpringBoot, NextJS, Vue, Angular, MSSQL Server, T-SQL, EF, Dapper

Projects

Candyroll Tech, LLC   *.NET, Docker, K3d, MySQL, Redis,*
                                        Cloudflare, Gitea, Ansible

MY FAMILY'S BUSINESS THAT HAS TRANSITIONED FROM CANDY-MAKING TO TECH. I HAVE CREATED PATH2SNACKS, AN
ALTERNATIVE TO DOORDASH, SELF-HOSTED ON A RASPBERRY PI 5 WITH DEVOPS PIPELINE.   *https://candyrolltech.com/*
